English · advanced · TOEIC 970/990
Spanish · B1

PROFILE

Trained as an industrial designer, I have several years of experience developing products related to sustainable mobility, from initial design through production follow-up, with a strong focus on project coordination, sourcing, and supplier management.

WORK EXPERIENCE

Industrial Designer and Independent Model Maker 2025 - Present
Self-employed · Paris

- Design and fabrication of architecture, product design and interior fit-out projects.
- Specialisation in prototyping and FDM / SLA 3D printing.
- Notable clients: Baccarat, Eau de Paris, Musée des Invalides...

Industrial Designer and Product Manager 2023 - 2025
Groupe Rebirth · France

- Development of a B2B range for bicycle mobility: products, stations and digital solutions.
- Coordination of long-term projects and cross-functional teams, from concept through production follow-up.
- Cross-functional collaboration in the automotive and marine sectors (24 hours of Le Mans, America's Cup...)
- Management of sourcing, purchasing, procurement, inventory and market intelligence.

Industrial Designer 2021
Meliad SAS

- Development of an industrial robotics product and design of the exterior body of a low-speed vehicle.
